

You make the memories, we take care of the rest

Craving some vitamin sea? Set sail on Quantum of the Seas[®], offering three- and four-night Ocean Getaways from Singapore. Fill every moment onboard this groundbreaking ship with sunshine, good times and wow-worthy experiences. And rest assured your well-being is our top priority. We've taken every consideration in making your vacation safer, so you can focus on memory making.

Testing for All

Every guest and crew member will be required to test negative for SARS-CoV-2 (coronavirus) prior to boarding.

100% Fresh, Filtered Air

Our HVAC system continuously supplies and filters 100% fresh ocean air to all indoor rooms and areas.

Medical Grade Cleaning Standards

Our new sanitization protocols rival those at the best hospitals using cleaning agents approved by the Singapore local authorities.

Less Guests, More Space

Royal Caribbean ships will sail with fewer guests onboard — no more than 50% capacity.

Upgraded Medical Facilities

More doctors and nurses, upgraded facilities, equipment, and sound care plans.

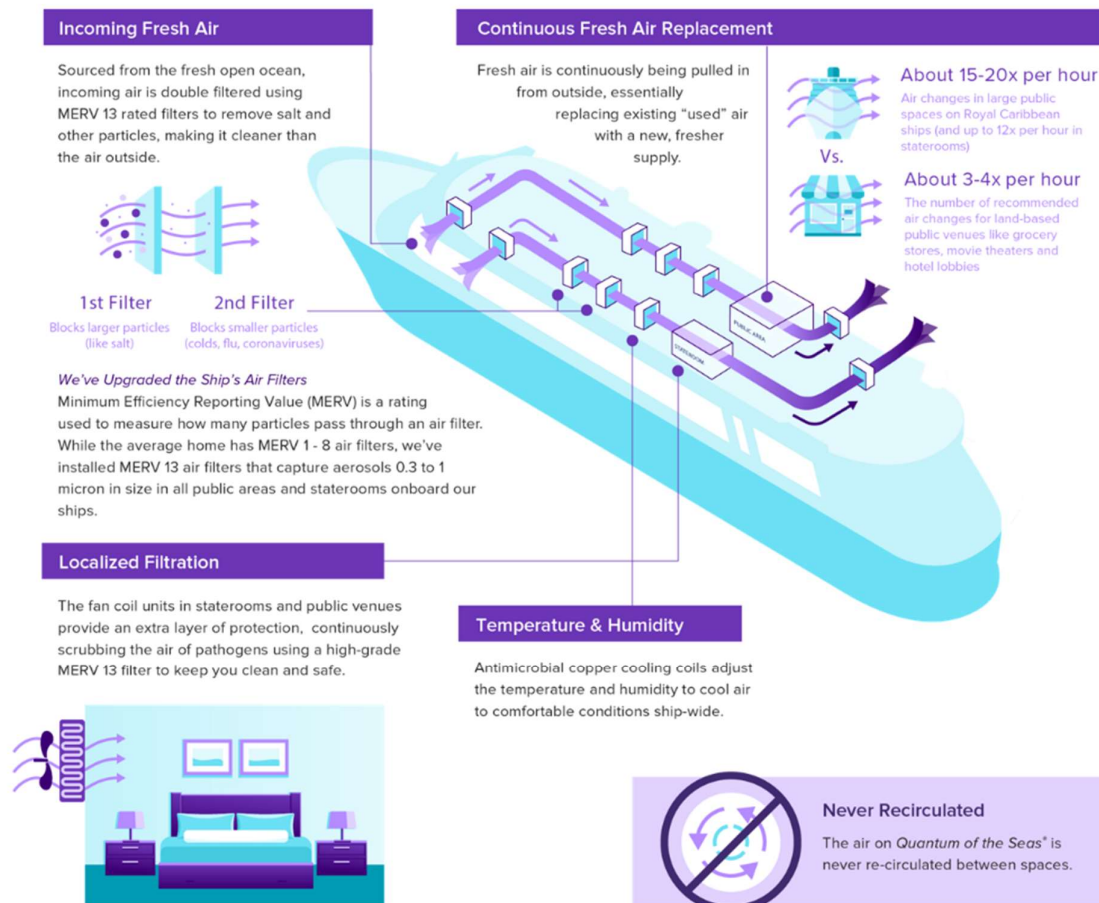

Safe, Timely Return Home

Our plan with the local authorities ensures to get you home safely.

100% Fresh Filtered Air

Breathe easy with fresh ocean air, no matter where you are onboard. Every Royal Caribbean shipboard HVAC system continuously flows 100% fresh air from outdoors to your stateroom and public areas. Upgraded MERV 13 filters capture aerosols 0.3 to 1 micron in size — fine enough to filter coronavirus, colds and flu.
